Apple Financing: User Information

April 2023

File name Apple Financing User Information.csv

File description This file contains the data that users provide as part of a Pay Later product application as well as data sourced from external identity verification services. This data is used for identity, compliance, fraud and credit checks.

Why Apple keeps this information Apple Financing LLC retains this data to support regulatory and legal reviews that Apple Financing LLC may be subject to as a licensed lender.

Field Name	Details
Apple ID Number	Apple account identifying number
Created Date	The date and time the record was created
Customer Input Data	The actual data provided by the customer in support of their Apple Pay Later product application
Data ID	The identifier for the record containing customer data from the product application
Data Type	The type of personal data stored
Externally Sourced Data	The data returned by an external identity provider, as part of identity verification
Match	Whether the information input by the customer matches what is on file with the identity provider
Pay Later Customer ID	The customer's identifying number within the Apple Financing systems
PII Data ID	The identifier for a record containing customer personally identifiable information (PII) data received as part of a product application
